

GABRU Token Whitepaper

Project Summary

GABRU Token is a pioneering cryptocurrency project dedicated to the welfare of stray dogs. Utilizing the Solana blockchain technology, GABRU Token aims to create a transparent, efficient, and sustainable model for supporting stray dogs worldwide, covering essential needs such as food, shelter, and medical care.

Introduction

Inspired by the plight of stray dogs, the GABRU Token project seeks to leverage the power of Solana blockchain to provide a solution that is both impactful and innovative. By creating a dedicated cryptocurrency, GABRU Token facilitates direct contributions to dog welfare projects, ensuring that aid is delivered efficiently and transparently.

Mission Statement

Our mission is to harness the potential of Solana blockchain technology to support the welfare of stray dogs. We aim to build a global community committed to making a tangible difference, providing stray dogs with the care and resources they need to thrive.

Problem Statement

Millions of stray dogs worldwide face challenges such as lack of shelter, inadequate food, and absence of medical care. Traditional methods of support often struggle with issues of transparency, efficiency, and scalability.

The GABRU Token Solution

GABRU Token addresses these challenges by:

- ❖ Creating a dedicated cryptocurrency for stray dog welfare.
- ❖ Utilizing smart contracts to ensure transparency and accountability.
- ❖ Facilitating global participation and support through Solana blockchain technology.

GABRU Tokenomics

- ❖ **Aid to Stray Dogs (5%)**: 5% of the GABRU Token supply is dedicated to improving the lives of stray dogs, addressing critical needs such as shelter, food, and medical care. This significant allocation underscores our project's core mission and is vested over five years to guarantee sustained support and impact.
- ❖ **Founders (5%)**: The founders' allocation represents a 5% stake in the project, reflecting our long-term dedication and belief in the GABRU Token's vision. This commitment is foundational to driving the project towards achieving its ambitious goals.
- ❖ **Public Sale (85%)**: The presale phase is crucial for securing the initial liquidity necessary for the token's stability and smooth exchange transactions. This strategic move aims to lay a solid foundation for the GABRU Token's financial health and market presence.
- ❖ **Airdrops to Community (5%)**: To bolster community engagement and widen our supporter base, 5% of the tokens will be distributed through airdrops. This approach is designed to enhance participation and spread awareness, fostering a strong and dedicated community around the GABRU Token.
